🔗 Portfolio

AI & Machine Learning Engineer with experience in computer vision, NLP and data processing. I currently work at Airbus on the explainability of vision models applied to landing assistance systems. I am looking to join a team where I can design, evaluate and integrate robust, practical AI solutions addressing real-world needs.

TECHNICAL SKILLS

Programming & Data:: Python, SQL, NumPy, Pandas, Java, C/C++

Machine Learning & Deep Learning: PyTorch, scikit-learn, TensorFlow/Keras, model training, clustering, fine-tuning and evaluation

Computer Vision: OpenCV, YOLOv8 Pose, YOLO-NAS Pose, ByteTrack

Natural Language Processing: Hugging Face Transformers, CamemBERT, spaCy, token classification, embeddings

Trustworthy AI: Xplique, CRAFT, attribution and concept-based methods

Data Engineering & Backend: ETL, Talend, Apache Hop, PostgreSQL, MongoDB, FastAPI, GraphQL

Cloud & Tools: AWS EC2/S3, Docker, Git/GitHub, Linux, Jupyter

Optimization: CPLEX, Choco-solver, CSP, Backtrak

LANGUAGES

French: C2, **English:** C2, **Albanian:** Native

INTERESTS

Football, Travel and cultural discovery

PROFESSIONAL EXPERIENCE

Airbus SAS ☑️

Artificial Intelligence / Explainable AI Intern
03/2026 – 09/2026 | Toulouse, France

- Contribute to the RELAI-VLS project on the explainability of runway detection models.
- Adapt CRAFT/Holistic CRAFT to YOLOv8 Pose and YOLO-NAS Pose to analyze learned concepts.
- Design experiments to assess the fidelity and robustness of model explanations.

Tools: Python, PyTorch, YOLOv8 Pose, YOLO-NAS Pose, Xplique, CRAFT, AWS EC2/S3, Git

Responsibio ☑️

Data Science Intern

05/2025 – 08/2025 | Caen, France

- Developed a system for classifying animal vocalizations for biosurveillance.
- Built an audio pipeline combining spectral representations and transfer learning.
- Trained and optimized an SVM classifier using PCA for dimensionality reduction.

Tools: Python, PyTorch, Librosa, scikit-learn, NumPy, Pandas, Git

EDUCATION

Master's Degree in Artificial Intelligence

University of Caen Normandy, Caen, France

09/2024 – 09/2026

- Expected September 2026

Bachelor's Degree in Computer Science

Clermont Auvergne University,
Clermont-Ferrand, France

09/2021 – 05/2024

PROJECTS

Automated Annotation of Clinical Narratives ☑️

09/2025 – 03/2026

- Developed an NLP pipeline for the word-level annotation of patients' autobiographical narratives to distinguish episodic and semantic details.
- Prepared the corpus, performed BIO tagging, and trained a CamemBERT model for sequence labeling.

Tools: Python, PyTorch, Hugging Face Transformers, CamemBERT, Pandas, Git

Data Visualization Application ☑️

03/2025 – 05/2025

- Developed an application for querying and visualizing sales data.
- Integrated MongoDB, a GraphQL API and D3.js visualizations using Docker Compose.

Tools: Docker, Node.js, GraphQL, MongoDB, D3.js, JavaScript
